## HEADLOGY.

WHILE some radmen deal with understanding (Boots and Shoes instance)

## GEO. ROCH

Deals with the intellect, coolly, justly and mercifully, not prosing the forebrain, harsh, unfeeling, hazy, not the afterthought, with a naïve which is felt in the pocket.

of land, in the 8d and 4th cons. of  
 POWELLER OF 1

These lands were carefully selected some years ago, by an experienced practical geologist, and are situated in the Hastings, and abound in QUARTZ VEINS, which undoubtedly carry gold.

The gold-bearing quartz has been found in several veins on the property, and is identical in character with the gold-bearing quartz of the famous large deposits of the same metal in the Colorado, and associated, has also been found.

The Deer River runs through the water course, and affords a fine natural water power for crushing and washing.

The subscribers will dispose of these lands upon terms of cash, or on easy terms, and will develop them, as they own more lands in the neighborhood.

Persons direct from the Owens River lands in this township have been withdrawn from sale by the government at the request of the United States.

For terms, &c., apply to either of the undersigned.

ANDREW THOMSON,  
W. W. DEAN.
